What BarCharts are NOT: a comprehensive study guide. You cannot do well on a law school exam or bar exam relying solely upon BarCharts. That is not their purpose. What BarCharts ARE: a condensed overview of the black letter law. Use them as a quick reference to understand the material during the semester. Use them as a REVIEW of the material you (should) have already studied for the exam. In law school, BarCharts were the last thing I skimmed over before taking an exam. It's a good refresher. Same with the bar exam. I skimmed over my BarCharts both nights before the exam.

Wasn't exactly what I was looking for as it was a little too legal. I thought it was going to be a layman's description of what things you need to think about when developing a strategy for a will.

I love these quick study barcharts and used them in many subjects throughout law school. I do not find the Wills & Trusts one very useful because so much of it is state law. Idk what I expected (obviously these charts can't have all jurisdictions on them), but anyhoo.

This just gave a brief definition of each term relating to Wills and Trusts.

A very handy quick reference guide for wills and trusts. However, it should be kept in mind that a poster like this is only meant to provide it's owner with a very brief summary of Estate Law and that the guide is by no means complete.

A quick look, but you need more.

This is a very handy quick reference tool. It hits on specific, basics. You're not going to be able to base any case around this outline, but it gives you an idea what direction you should be heading.
