Customer Reviews

Great advice on where to go and what to see
Confirmed (again) that dining in the listed places provides a superior experience even in the simplest restaurants

Very good and useful guide for planning a trip to Spain. Suggested routes helpful.

No maps or trip planning

Michelin guides aren't what they used to be. They can give you a good idea about the smaller places of interest as well as the biggies, but when it comes to details about sights, they are okay for use while traveling, but not great. I think its best use is to planning and to identify smaller and less well known places to visit if you want to travel outside the big cities. Then go to the internet and download more detail.
