Customer Reviews

If you are just beginning to play bass I would highly recommend this book. There are a few challenging songs, but I have found this book to be helpful in getting started and it is more fun to play the bass with a band. I have purchased a few other bass play along books (Aerosmith, Rush, The Police), but this I have found to be the easiest to play. For the beginner this would be a good book to start and help develop your skills.

It's not bad, but not great either. Too many mistakes in the notation.

Straight forward. Recommend

This is a high quality product! My bass students love the play along track! I used the track for a

student recital last year instead of the band!

Big Christmas Day hit!!!

A book that every bass player who loves Pink Floyd should have. Excellent for those who want to enhance the bass, to play the music of Pink Floyd.

Excellent tabs and the app is very good too. you can change tempo easily ! Very good stuff! I love it

Happy with purchase!
