Larson Algebra 2 (Common Core Edition)

This an excellent Algebra 2 book. it covers all the topics of algebra 2 in a very understandable way and prepares the student well for higher math courses.

The book was in excellent condition.

Arrived on time and as described

Item as described, love it, thank you!

great

The book is upside down when I got it. The book was simple enough for practice, and kept one at home for the handy simple question, and review, but it's not detail enough for the exam, special on the final exam.

school use.

the book is new. my son use it to go to the school every day. for homework and for school work.
