Exploring The International Space Station

Synopsis

What's longer than a football field, weighs more than 450 cars, yet flies miles above Earth's surface? It's the International Space Station. In this book, you'll learn how the station was built and how crew members live and work there. As part of the Searchlight Books™ collection, this series explores outer space and sheds light on the question: what's amazing about space? Kid-friendly explanations of science concepts will help you discover the answers!

Book Information

Audible Audio Edition
