Not For Parents Paris: Everything You Ever Wanted To Know (Lonely Planet Not For Parents)

Synopsis

Lonely Planet: The world's leading travel guide publisher*This is not a guidebook. And it is definitely 'not-for-parents'. It is the real, inside story about one of the world's most famous cities - Paris. In this book you'll hear fascinating tales about creepy stone gargoyles, ghostly railway stations, huge castles and amazingly pampered pets. Check out cool stories about stuffed animals, caves filled with bones and the deadly guillotine. You'll find cyclists, junk collectors and musicians, and snails on the menu for dinner. Where can you pretend you're at the beach in the middle of the city? Who smiles at 6 million people a year? Who had her own life-size village built just to play in? Which famous building was built inside out? This book shows you a Paris your parents probably don't even know about. Nobody tells you that you will have hours of waiting in line! With this book, the whole family learned about each site and looked forward to getting inside. Great as a gift for families planning a trip to Paris

I gave this book to an eleven year old as a gift before she went to Paris with her grandmother. It kept her entertained for the entire flight and she discovered things she wanted to do like ice skating on the Eiffel Tower.

Cute. Maybe a little over the head of our 8 year old, but she had a passing interest in it. A stronger reader or older reader would likely enjoy it more. I personally poured over it and found it adorable, but, at 30+, I'm slightly out of the age demographic...

My kids read it cover to cover before our trip to Paris. While touring the sights they were eager to share the information they had read from the book. Made the trip more enjoyable for them. Would highly recommend.

During a recent trip to Paris, this book served as perfect companion to Mission Paris: A Scavenger Hunt Adventure for Kids, which I highly recommend. My 8-year old didn't let me give this book a close read -- because it's "not for parents"! -- but she clearly loved it and recited facts from it all trip long. I highly recommend it.

I purchased this (and its London version) for my 10 year olds as we prepared for a trip to Europe. They devoured the book, were able to tell me many interesting facts they gleaned and were excited about a trip as a result. This is the type of book they pick up again and again. Great purchase.

I got this book for my daughter for Easter. Since she was six years old, her dream has been to go to Paris. She loves this book! She is now 8 yaers old and thinks this book is wonderful. It's great because you don't have to read this book from cover to cover. You can jump around and read the things that intrest you the most, first. She is now constantly filling me in on fun facts about her favorite city.

I am a huge fan of this series. My 7 year old daughter led us through Paris with this book, and she

ended up loving the Louvre and the Orsay because of this book! Hooray for a popular education tool to teach art history! Our trip to Paris was a smashing success and this book was a major factor.
