## Customer Reviews

this book was a required text for BSN program. Good reference for global health class. Received book on time and condition as described. Thank you.

Great book awareness Thank you for making this accessible.

The book information is great. I'm finding the information very helpful as I've been learning about global health. The binding is cheap the book is falling apart after a week. Recommend the book but need new publisher who will bind it better. A \$70 book should last longer than a week.

The content is great - but the font size is ridiculously small - hard to read, highlight and take notes.

Good textbook.

A++

for the price, the book is more tattered than I would expect

The binding of the book is falling apart and pages are falling out of the book as I'm trying to use it
