Customer Reviews

I love the songs and the pick and strum pattern suggestions always seem to fit the songs very well.

About a hundred songs or so. Most of your favorites that have been simplified for beginners. Gives tabs with strum, chords with strum or you can play the notes. I think anyone up to intermediate will be happy with this.

There are a lot of songs in here that are not, IMHO, easy. But I consider that a plus as I have worked through the different songs as I gained the skills to play them.

I just started playing the guitar in January. I wanted to be able to play in church one day. This book has the chords in the song at the top of the page and how to play them. It has many songs - popular and old favorites. I can play through one or two and hope as I learn more chords to be able to play more. Would highly recommend it to others.

Alot of old songs I remember. I'm going to have my teacher change to bass tabs for me to play. I wish they had a Bass version of this.
