This book was written by DC area residents, and their knowledge of the city shows. The reviews of restaurants, hotels, and attractions give the reader a good idea of what to expect: editors' picks, top picks, and kid friendly places are all marked with special icons. The index is exhaustive, and the table of contents clearly shows the organization of the book. I especially like the "Fodor's Features" box, which points out the in depth sections, which are marked by an orange "In Focus" bar along the edge of the pages, and the list of maps. Some of the maps could be better, but overall they're pretty good. Two of the best maps for showing the locations of hotels and restaurants are not on the list of maps, but they have their own chapter, "Dining and Lodging Atlas". The inside front cover has a map of the Metro, and the inside back cover shows a detailed map of the Mall and where the Metro lines run there. The pull out map is a typical map of DC, meaning it doesn't go very far north or west, but has good detail for what it shows. It has a detail view of the National Mall and Downtown on one side, with a paper surface, and the main map on the other side, with a glossy, almost laminated, surface. The reviews all mention Metro stops when they're close enough to walk, and they all give a price range, from a cent sign to four dollar signs. They don't give a dollar figure, though, like some other guides do. This book also doesn't give as much information on the DC Circulator or public transportation options other than the Metro. My favorite thing about this book, though, was the unexpected humor found throughout, especially the Party Animal boxes in the nightlife section. Overall, a very good source of information and planning tools, as well as some culture and history.

the guide book was simple and useful. the food and dining recommendations were spot on, combine those with yelp.com and you'll be fine :) so far other than fodor's dc, i have used boston (which was also very good). i'm waiting my copy for fodor's california, sf and la now personally i prefer the way fodor's guide books are structured, i find lonely planet and frommers a bit cluttered and confusing at times. but hey it's a personal preference i guess~

Fodor's Washington D.C. is a super reference for anyone who visits. I do suggest that you get the most recent edition.
