Customer Reviews

I purchased this Eva Cassidy songbook so I could learn to play her songs that I love on her albums and I found the writing and illustrations very beautiful and appropriate for this type of music book. I appreciated the explanations of how to read the notations so that I could learn to play like she did from the book. I enjoy using it very much.

We got this book because we were playing one of her songs at my cousin's wedding. The chord changes are very accurate and easy to follow.

Just what I was looking for. Awesome.

Very nicely written book including most of Eva's most popular songs. I particularly love the chords

above the music to remind you what you need to do for each particular chord. Also nice is capo placement. If you are an Eva Cassidy fan, I recommend this book even if you are a beginner guitar player due to the ease of chords etc. I would have given it 5 stars, but some of my favorite songs are not in this book, so I need to figure those out for myself.
