"This is an excellent haircoloring guide. The information is clear and easy to follow." -- Magaly Corvo, Cosmetology Instructor, Miami, FL

Martha G. Fernandez graduate from Wilfred Beauty Academy and obtained a Cosmetologists license from the State of Florida. She has a Bachelor's degree in education from Florida International University and was a salon owner. She has been a business owner, producing books and videotapes in the field of Cosmetology since 1984.

It is written in very clear understandable language. The instructions for mixing color & color correction were exactly what I was looking for to do my own professional color at home.

I don't understand this book at all, I've tried. Maybe that's why I should not take the chance of doing my own hair color. I've got to give the hair color experts a lot of credit, reading this book only made me realize I need to go to school to make sure I do this right.

I learnt about types of hair, testing hair and products.

good for cosmetology student or just home cutting use.

Book is very good.

Great book a bit out dated, but awesome book to have!! I have learned a lot that I didn't know great book to have!

very good book writes in detail the story about natural color shades and how bleaching takes the color down to red and then blonde all according to the time you leave it in. I did many experiments on myself, and being an at home colorist; was pleased with the results. With my basic knowledge re coloring and this book, I got a better idea what I was actually doing to the hair. thanks.

Lots of info inside !
