This deck is hands down, my favorite deck to read for others with. The artwork is beautiful. The organization of the deck makes it very effective. There is a major and minor arcana, though they are not traditional. I love that the chakras are represented as well. This deck can be used for any large, traditional Tarot spread that you like. I particularly like using the deck for a Celtic Cross spread.

This is a fantastic deck for beginners and advanced readers. I was immediately drawn to this deck from the moment I saw it...The art is fantastic and inspiring in its self and allows the right brain to really work its magic when I got the deck it was an immediate good feeling. I read the guide book in one sitting. I feel like I chose the right deck for me at this time. If you are looking for a book that combines many esoteric/occult traditions such as numerology, color therapy, chakras, Law of attraction, then this is a great deck. The author has combined the tarot Major players well but the minor players is not tarot in my opinion but this deck really allows you to read the illustrations which match their meanings so well it's easy to find insight into you're self and others. It's a very inspiring deck and positive deck even when you land on a negative there is still a silver lining if you will. It's a wonderful deck and I would recommend it to anyone with an open mind.....if you are truly willing to be honest with you're self then the greater the insight.

The day I got these cards I was having a really bad day. I was in a bad mood and in that state of mind I looked at the box they came in and just knew I'd be disappointed with what was inside. I got a major shock when I opened it though! I adore these cards. The gold edging, the beautiful artwork...I can't even put them into words. They are officially my favorite cards. As kind of an additional plus for me it seems that a friend of mine also has a connection to them. I live in the US and she lives in the Netherlands but we chat daily and talk on the phone often. Since the day I told her about my new beloved cards she has "picked up" on random images from the cards. She has "seen" several of the cards and so far none that she's mentioned have been available to see online. A bit spooky huh? Lol. These cards will be my favorite cards for years to come. I can feel a strong bond with them. I would recommend them to anyone!***Update*** July 2011 These cards are still just as amazing as the day I got them. In fact I just ordered another deck for a friend. They have stood up to all the wear and tear from multiple readings being done beautifully with no actual wear and tear on them. They still look like new. I would still recommend them to anyone, from novice readers to advanced

this deck is simply amazing. (And for the record still my official favorites.)

I haven't been playing with Tarot very much, but, i love these cards. They are easy to read, and For me, they connected easily. The coloring and graphics are beautiful. The book yah comes with it explains what colors mean and even numbers. I have found that each time i use them, i get more connected to them.

After watching John Holland on youtube and learning about my abilities, I decided to try his oracle deck of cards. I love them and found them to be beautiful and very spiritual. I bonded with them immediately and find it easy to interpret them. I have yet to disappointment any of my clients with a reading from them. The deck gets a lot of compliments and they have what I call "a sense of feel good" to them which helps me in delivering the spiritual guidance that is meant to be given in a read! I highly recommend getting this deck.

I am just getting to know Oracle cards, they will be different and more on a personal fit, they are very lovely and the book has wonderful definitions. I am looking forward to a long and happy relationship.
