Customer Reviews

If you have ever seen a pencil drawing copied, and then copied the copy several times, here is what we appear to have here! Although there are some extremely interesting aircraft in these pages, coloring is pretty much out of the question. The pages are faded, there are few defined lines to draw within. I requested a refund ... I won't bother with the other volumes in this series.

very low quality book. Much worse than the ones you see at dollar stores. I'm returning it.

Great item, great price and very quick delivery.

Great detail

The book appears to be a "print on demand" item. For the price, I don't mind; however, it's time to

find a stronger copier. The images are so faint that most are barely usable for coloring.
