Now that I'm back in the corporate world after working from home the past couple of years, my time for my husband is significantly reduced. We have agreed on a fixed weekly date night where he or I would cook dinner for the other, so this guide was perfect for our purpose. Happy with the new dishes that I've learned so far, and also with the variety of meals we can prepare using some of our favorites such as salmon. Great that the author mentioned the number of servings each recipe makes too!

This is a great book awesome recipes that are easy to prepare. It has easy steps and procedures that are easy and simple. It also explains the benefits of sheet pan cooking which aims at preparing healthy and tasty foods. The recipes are great and very natural hence less harm when consuming. Good job of the author.

My partner purchased this book a few days ago for some new dishes. By reading this book I have learned tons of healthy, delicious and easy recipes. This book has helped me greatly with managing how much I cook and the food I cook taste better too with the ingredients they suggested. All were mouth watering and tasty. I found that this book is very useful. If you are looking for great recipes for cooking, this book will satisfy you.

This is very convenient. I like the recipes. They are simple and easy and most of all the servings are just for two and three mostly. Though the recipes are just 45 but not disappointing because I have recipes from all categories including desserts. Simple to prepare and easy to find ingredients. Instructions are easy to follow for someone like me with less kitchen experience.

This cookbook is great and fantastic for two. It provides wonderful recipes that are not only extremely tasty but are incredibly easy to make. I love the variety of cuisines that this book covers and it makes it easy to try different foods at home. They teach you so much and the portions are perfect for me and my hubby.

Delicious Turkey barbeque tacos. I am addicted to this recipe book and I am preparing for my next menu today. For the main dish I am in love with broiled steak with asparagus and creamy feta sauce. My grandfather will surely love this meal. I will be sharing this recipe to my mother-in-law as well.

Started cooking late last year. Aside that I have to, I also want to. But sometimes, I am alone at home so I only have to prepare meals that is good for two meals. And this book has given me a solution to that. On top of what I need, the included recipes here are totally tasty to me!

This book is really great. A lot of working moms like me will benefit from this book. Imagine you can prepare a healthy dishes without consuming too much of your time. Hoping for next edition of this book.
