Customer Reviews

Use your phone this book was too complicated to figure out and it didn't even have the updated Italy schedule. We bought it for Italy. Your phone will serve you better with the train ap for Italy. It was a waste of space in our backpacks I am going to see if I can return it.

How much easier for the armchair or actual traveler to have a physical timetable! On line schussed ate fine for point-to-point trips, but to plan for intricate trips with branch line excursions this timetable is invaluable.

Useful but expensive.

It is what I expected and needed. It is user friendly, gives information which makes planning easy, offers options for scheduling -- Thanks to the publishers!

Awesome information!!!!

This book is so very helpful when planning a European rail vacation.
