This Flexible Dieting cookbook has lots of recipes I have never tasted before. Just like on e of the craziest recipes I have ever heard of; The fruit pizza, and there is not just this one but many more in the Flexible Dieting cookbook. The cookbook is divided into 4 sections: Breakfast (relatively easy recipes), Lunch, Dinner (bit heavier meal designed to fill your entire family), and Small meals (snacks and sides). If you are looking for some healthy meals for mixing into your Flexible Dieting you need to checkout this cookbook.

I bought this book because of the cover that said: "31 high protein recipes to help you lose fat and build muscles". This is exactly what I was looking for. I believe in the importance of proteins in human diet. Our body is mainly made (or let's say: should be made) of protein (if you don't count water, of course). Everything important in our body is protein: muscles, skin, hair, fingernails, internal organs...and...also our heart! So, this book about high protein recipes is perfect. Also, many of the recipes use protein smoothie powder as ingredient. Which is another good point for me, as I use protein shake preparations since more than 10 years and that is also what I encourage my customers to do. Now, "shake-shake-shake" can end up boring, and many people are looking for more creative ideas: How to use protein shake powder to prepare more elaborate dishes. Here it is, a nice cookbook that gives a lot of ideas. But wait, there is something else about this book. It is actually written in a very particular style. For me, the recipes are narrated like a story. A "food novel". It's a kind of voyage through high protein recipes. I loved it.
