Warden (Book 1: Wendigo Fever)

Synopsis

Part lawman, part tracker and part magician, the Wardens are monster-hunters - tasked with protecting the people from the various, nightmarish creatures that have invaded the world of men. However, despite being descended from a long line of Wardens, 16-year-old Errol Magnus believes it to be the absolute worst job on the planet: How could a single occupation simultaneously be the most boring, abominably stupid and extraordinarily dangerous profession imaginable? But when his older brother Tom - the current Warden for their region - goes missing, Errol has no choice but to enter the Badlands, where monsters abide in mind-boggling numbers, to find him. During his search, Errol crosses paths with - and finds himself stalked by - the legendary Wendigo, a monster with preternatural strength and speed, as well as enhanced senses of sight, smell and hearing and an insatiable hunger for human flesh. Now Errol must do the impossible and not only escape from the monster (something no one has ever done before), but also avoid the unearthly legacy it leaves on all its victims - a terrifying curse known as Wendigo Fever.

Customer Reviews

Okay, be warned--if you're anything like me, I don't always remember to check the number of pages. This is almost a short-story, not a book. I'm too lazy to look it up, but I think it had 115 pages or so. It's also hard to get real characterization in that short a work, or to have meaningful personal growth, imo. That being said, I like the author, and he did a decent job with a fairly short work. If you're like me, and like to sink your teeth into a book, then this probably isn't for you. However, please allow me recommend Mr. Hardman's other work currently on --Sensation: A Superhero Novel. It's about double the length of this one. Link provided below (assuming links work on , I haven't tried a link in a review). Strong characterization . . . a touch predictable, but overall a solid effort. I haven't done a review of that one (yet), but I'll certainly recommend it here.http://www..com/Sensation-Superhero-Mr-Kevin-Hardman/dp/1937666042/ref=sr_1_1?s=books&ie=UTF8&qid=1370915186&sr=1-1 I think Mr. Hardman is still a novice writer, but he's showing real promise. I will certainly consider another of his books. If you don't mind a shorter work, you'll probably enjoy Warden as well. Good luck, Mr. Hardman--I hope you keep writing, sir!

I got this right after Christmas and read it last week. I have a lot of reviews to write but wanted this to be in my top 10 today that I got up. Trust me, a short, great story that the little kid in you will LOVE!!!! This little priceless nugget really took me off guard when it ended, my only complaint was it should have been longer. I will be getting any book from this author, really was interesting and loved the angle the book took!

Hardman writes some entertaining fiction, and if you haven't read his Kid Sensation books you should give them a shot. This newer series is quite good, and it features a unique world and a cast of characters that I found to be a lot of fun. It's a quick read, but worth the price and then some. I won't spoil it for you, but he manages to blend modern urban fantasy elements with fantasy fiction and dystopia in a very interesting way. Check it out if you like any of those genres.

Wasn't sure what to expect but was very pleasantly surprised. Great characters, good story line. A good read and I will be disappointed if there isn't another book. Will be looking for more from this author.

Nicely done. A well-realized alternate world, good characters, and plenty of potential for stories. I like that it was stand-alone, yet obviously had more story to tell.

Usually as I read I am watching my progress. This novel captured my attention as soon as the revenant showed up. It was a horror a moment. Excellent novel!

I chose this rating because I enjoyed reading the books. I was able to escape from my everyday life into the stories. I have always enjoyed reading about Super heroes, such as Superman, Batman, Wonder Woman, etc. I will be purchasing another set for my nephews. I think that these stories can one day be into movies. I enjoyed everything about the book. There was nothing that I disliked. Claudia N. Reynolds Toledo, Ohio

This a good short story to read . the action is continuous but paced. The beginning set up for the story is a bit slow, but the book picks up and maintains a good story line with a satisfying ending. I feel it could have made a good read over a much longer book.
