Customer Reviews

Franko Maps Ltd. is known for producing the best travel, dive and snorkel maps, guides and fish cards for the Caribbean and other locations worldwide.

Perfect solution to an upcoming dive trip to the BVI. I did many searches online for dive sites but each search only listed some of the options. I found myself printing pages and pages of information and entering them into Excel in order to standardize the information. This map includes all of the site options I found plus more. Add diving depth, suggested skill level, site description as well as dive shop locations and this is pretty much a one stop shopping guide to choosing your dive locations and planning the dive. Can't wait to put it to use!

I have purchased this and other Frankos maps. I like that the dive sites are labeled and also give a brief description directly on the map. Also ranks difficult sites as high current and deep diving can be dangerous dives. These maps also show and have mini explanations of points of interest on them. There is a second side too that tells more about the island. A good value. You almost don't need a guidebook as so much is in the map.

Great map and information, two different bareboat trips with it and it's ready to go again.
