I've been following Chris Botti for a few years now. His original PBS special 'with Orchestra & Special Guests' inspired me to start playing again. To this point, it's been mostly by ear and watching the DVDs closely. I got this book at the same time as the new concert DVD; plenty of motivation there. I found the book detailed enough to get me started down the same path I'd already started on, confirming my tones and notes. It's a great addition to understanding the little half notes you hear so often on his tracks, and will soon get you playing with the same page with such a great trumpet player! -Mark

I ordered this late Friday night, and it was in my mailbox Monday afternoon. I couldn't believe the

service. (The book is great and fun to play, but I'm still astonished by the incredibly fast service.)

Just a great book , now it I can only play it right

This is my go to music when I want something relaxing but won't put me to sleep. I feel like I become one with his music. Sometimes the trumpet can sound too high pitched and grate on my nerves, not so here. Chris Botti is a superb trumpet player.

Love, love, love that I can play some of his greatest works!!

This is a great book with some great songs from BOTTI's albums. It is a really nice break to move from technical studies to playing along with Chris Botti. Would recommend this book for intermediate/advance players.

Perfect! Exactly what my husband needed/wanted. Only problem is I bought this same book for him about a year ago! LOL

One day I will achieve the ability to play this good
