Customer Reviews

"The Jones textbook highlights the medical term and basic definition in green, which allows students to quickly identify the information that match my current course objectives." "I like the organization of the lists, the way the most common terms are segregated by the type of word or element, and the variety in the chapter review."

Betty Davis Jones RN, MA, CMA (AAMA), is chair of the Department of Medical Assisting, Phlebotomy, and Health Promotions at Gaston College in Dallas, North Carolina. She is a member of several professional organizations, including the American Association of Medical Assistants, the North Carolina Society of Medical Assistants, the Gaston County Chapter of Medical Assistants, and the North Carolina Association of Medical Assisting Educators. Mrs. Jones is a registered nurse and a certified medical assistant (AAMA), and she holds a master of arts degree.

Never have I ever rated a textbook as they are usually boring and required reading. However, at the end of my rental period I will be purchasing this book. It is the most helpful medical/anatomy book I have ever used. It's extremely clear, organized, and straight forward.

Very educational and informative. One thing that is missing though is the CD review material, other than that it is okay.

There was very little water damage, but it works perfect. The book had no writing in it which was fabulous. Thank you so much
