I'm obsessed! Absolutely love the illustrations and that it includes Hindu tales from all over India. I've mostly heard North Indian Hindu myths, not so much from other parts, so it's been great learning more :)

I read this books of myths to my day care children, for fun and education, and I also use sky myths from all over the world when I do astronomy outreach, as an amateur astronomer. This Puffin book is a bit stodgy, slightly pedantic, but the stories are new to me, and kids are enjoying my readings. So far, not much to use in my astronomy classes, but I have not read the entire book yet.

Great book for kids...
