Away From Whipplethorn Series Box Set (Books 1-3, Plus A Bonus Prequel)

Synopsis

~From USA Today Bestselling Author A.W. Hartoin~This box set includes the first three books of the Away From Whipplethorn Series and the prequel short, Flare-up. A Fairy's Guide to Disaster

Tiny fairies. Huge adventure. Matilda Whipplethorn is about to get what she's always wanted, and it's a bad thing. Being a babysitter isn't much of a dream for the average thirteen-year-old, but Matilda is anything but average. She's half a centimeter tall, invisible to the human eye, and hearing-impaired. Her mother won't let her forget any of that. So for Matilda, adventures are in short supply. Finally agreeing to let Matilda take some responsibility, her mother gives her a list of emergency procedures for babysitting. The only problem; humans aren't on the list. Fierce Creatures

Another day. Another disaster. After surviving a kidnapping and battling with spriggans, Matilda Whipplethorn finds her life in a suburban human house pretty boring. She's been excluded from school because of her fire-making abilities and her former friends are afraid of her. Salvation comes in the form of a life-threatening illness. Her tutor, Miss Penrose, needs a medication and there's only one place to get it, the spriggans. Matilda heads back to the antique mall to save Miss Penrose even though it just might cost her everything.

A Monster's Paradise

Paris isn't for lovers. It's for fighters. Matilda Whipplethorn thought her mission would be simple. She'd get the cure for Miss Penrose and get out, but nothing is simple in Paris. The fairy revolution is heating up, not cooling down as the Whipplethorns were told. Navigating the city comes with unexpected dangers, blood-thirsty rebels, tyrannical royalists, and monsters of all kinds. The Vermillion clan holds the cure and they're in hiding. Every time Matilda asks a Parisian fairy about the Vermillion, she becomes their enemy in a city that is now all enemies and no allies. Now time is running out, and Miss Penrose is fading fast. If Matilda doesn't find the Vermillion, all the trouble will be for nothing.

Customer Reviews

I think it is a good book for young readers and the best book I have ever read in like forever

I loved these. An unusual take on fairy tales but adorable

great series

I cannot get enough of this little series! It is absolutely enthralling! amazing I bought it for my daughter who was 14 and I could not put it down! Can't wait for the next book And I've already read number 4!

I loved it!

Purchased the first book & "preread" it to make sure it was 'safe' for my kids to read. I am so excited to get to read the next few books! All the writing is appropriate for my 8year old, with enough action & adventure to satisfy me (40+) and my 10 year old. Sure there are some slightly scary bits, but no worse than even some of the G-rated movies out there.

If you liked Terry Pratchett's The Borrowers, then this series is for you with a tiny cast of magical Fairies that live in a mantle who have very large adventures filled with lots of trouble.

Really pleased with this series. Happy I can introduce it to my students. In fact this can be wonderful fun at any age. I bought the first four books of the series separately and am looking forward to the

next one. I have already downloaded other books from this author.
