Gotta love Busy Books! It gives kids a chance to play with all the figures they enjoy without having to purchase each individual figurine. They hold up very well, and for the price, I don't mind it when my kids want to take their figurines in the bath tub or the sandbox! The play mats always seem pretty useless to me, but my kids always love them & use them when they play! Busy Books are also a great toy to take on vacation, especially if you take the figurines out of the box & put them in a baggie. They take up just a little space, so you can toss them in a backpack or suitcase!

My 5 year old son loves busy books. He often requests busy books for gifts. I must admit, I find the little figures to be captivating as well. I love watching him play with the figures. It is such a window into his mind and I love to know what he thinks. I think it is so important to get young children to role play. Kids learn so much that way and parents learn more about their child's unique personality. Every busy book we have owned has had great character detail, even if only on a small scale. Several figures are included in each book. I also like that some lesser known characters are featured.

Fun book to keep my 4 year old son busy. I bought this for a hotel room vacation- it kept him busy playing with the figures mostly. Great buy for this reason. Probably would be great for airplanes too!

These Busy Books are awesome! We have a few of the different themes, they provide tons of quite time and keep my 5 year olds entertained. My kids (5 years old) love them so much, this was purchased as a gift.

Great but the action figures are much smaller than expected (& easily lost). The Bubble Guppies version had much nicer size figures.

My son loves this book

Bought these for my grandsons. They mom is very watchful of what they watch. They are 5 and found stories very interesting without showing violent scenes.

Got this for my 2 and 4 year old grandsons for when the visit. They love to play with the characters
