## Customer Reviews

Purchased a prior edition in 2009. The newest edition is as good as the other. Made my plans for a trip next year a snap. Had pretty much an idea of what I was looking for, but continued to read and all of a sudden I included two more side-trips. It is so easy to navigate through.

This book gives lots of information about traveling by rail in Britain, that you would find difficult to locate otherwise.

This edition of the old standby is a disappointment. I never was able to order the pass

Leaving for Europe in May and I have already used it for location info, etc. Excellent resource book and we made some decisions on visiting locations from this book. Well put together.

As avid Amtrak passengers, we're planning on using BritRail as much as possible in the British Isles. This book is full of basic information and lots of details, too. It's also very readable.

Just what we needed!

Good stuff !

It has been very helpful to us as we are making plans to go by rail to Scotland and also some other short trips while we visit the UK this Fall
