Financial Shelter: Avoid The Storm Of Market Risk, Lawsuits, And Taxes

Synopsis

You need Financial Shelter in three main areas: Shelter from financial market risk: Shelter from predatory plaintiffs' attorneys; Shelter from the IRS. This three-part special report, which contains many informative external links, is a "how-to" guide to finding Financial Shelter through: 1) Diversification from the financial markets; 2) Bullet proofing your assets; 3) Reducing your income taxes. First, Financial Shelter will show you in detail how to diversify from the financial markets into real estate as a direct lender of "hard money" or, alternatively, as a "done for you" secured investor in a real estate debt fund. Next, it will show you a simple, inexpensive yet rock solid asset protection plan achieved via equity stripping in a Wyoming LLC. Last, it will show you a plan to reduce your US income taxes to an effective 15% via the US sponsored tax haven of Puerto Rico "without moving there. Protect your financial success by taking action with Financial Shelter. You will be glad you did. The author is a New York attorney, California real estate broker, and California general contractor. His experience is in real estate development, brokerage, construction, investment and management in the US and overseas.

Customer Reviews

The author, Tony Brunner, has written an insightful book for any investor. I was unaware of the opportunity to invest in a real estate fund and I'm considering Tony's offering, Tony.SFIFund.com. I also researched the chapter about the equity stripping strategy for asset protection and was amazed I had never heard of this before. I appreciate Mr. Brunner sharing this insight!

Financial Shelter is a must read for professionals and novices seeking to make money, protect their assets, and/or reduce their taxes. Brunner offers straightforward advice, checklists, procedural guides, and many links to relevant professional sources. In these challenging times, it is well worth reading.

Beautifully written and an abundance of solid information - a must read.
