Happy Endings Sleepover

Synopsis

Johnnie is a 20-year-old American kid who moves to Denmark to attend school. He meets Sander, age fifteen, at a party one night and the two become fast friends. But Johnnie has a secret, and it has nothing to do with his burgeoning sexuality. Johnnie works for the CIA in field transportation, infiltrating agents and exfiltrating valuable assets all over Europe. But complications arise when Sander learns of Johnnie's career at a time when secrecy is paramount to the success of a life or death mission. Cade Jay Hathaway's *Happy Endings Sleepover* is a taut thriller with a young, gay eroticism that makes it an irresistible page turner.

Customer Reviews

I have only just started reading Cade Jay Hathaway's novel, *Happy Endings Sleepover*, and so far it is wonderful! You are easily pulled into his story like you are actually there, witnessing everything he is writing. I am looking forward to more great stories from this extraordinary young man and I wish for him every success and happiness with his wonderful

family!!! :)*****| I have read Cade Jay Hathaway's book, "Happy Endings Sleepover", TWICE, so far! And I know, as a gay man, it will be a book I will cherish and read many more times in my life. First and foremost, because it is a gay coming-of-age love story of today's youth, about two young people, Johnnie and Sander. It is so well written and descriptive, the subject matter and characters are so real and poignant, that it is like you are right there with them through all of their experiences. Secondly, you cannot help but feel all the love, longing, joy, and heartache experienced by Johnnie and Sander. On top of all that, it is a first class thriller, set in the world of intrigue and danger, as Johnnie is a CIA agent on his very first assignment, in which he allows Sander to join him, because it is so hard for Johnnie to be apart from Sander after having found the love they have both sought all of their lives. For me, personally, there are so many of my other favorite authors I could compare Cade Jay Hathaway to, however, I think one of the top closest, for me, is Ray Bradbury. Because he too puts you right there in his stories, he makes you feel you are a part his stories with his characters, and he can make anyone feel like a kid again. In all seriousness, the other three authors Cade Jay Hathaway is right up there with, for me, are Harper Lee, "To Kill a Mockingbird"; Robert R. McCammon and his book, "Boy's Life"; and Joe R. Lansdale, author of, "The Bottoms". Because they are each such extraordinary writers, and their gifts of storytelling are simply phenomenal. Cade Jay Hathaway's book, "Happy Endings Sleepover", is real, raw, powerful, and emotional. He shows what it is truly like to be gay in today's society. I only wish I had had someone with the courage and ability to write such a book that I could have read when I was growing up, that I could have looked up to and realized I was not alone in the world. I could not recommend this book more highly for all LGBTQ youth to read, as well as their loved ones and friends, to understand for themselves what it is truly like to be an LGBTQ youth today, with all of the pain, hopes, dreams and struggles they face every day. I can only ask that anyone not open-hearted and open-minded to perhaps pass on this outstanding book, by this truly remarkable author, as it is very "real" in the love and passion shared by Johnnie and Sander, in every sense of the word. And to judge this wonderful book based simply on those elements alone is utterly unfair; and says more about you, than it does of this great book and its author. "Happy Endings Sleepover", is the first book written by 24 year old, Cade Jay Hathaway; his follow-up book, "Sander's Courage", is due for release at the end of August, 2015. I can only hope that this brilliant and promising young author graces us with a great MANY more books of Johnnie's and Sander's loving life together. Just as V.C. Andrews has with her

books for her legion of fans. I honestly can see, Cade Jay Hathaway, earning many literary awards for his remarkable works, of which he is truly deserving.

This first book by author Cade Jay Hathaway, is so well written I found myself experiencing all the raw emotions and intrigue as if I myself was participating along with the main characters. Finding one's soulmate is never an easy task nor is it specific to only heterosexual couples. Everyone is searching for this special someone and Cade shows us that we all have the same needs and desires whether we are straight or gay. As demonstrated in the book, he falls in love, shares desires with his partner, works hard at being successful in his new job at the CIA, makes mistakes, suffers heartbreak, mends a broken heart, and becomes a member of a wonderful and supportive family in Denmark. I have read many books, but this book stands out above most others. It's a motivational, funny, full of intrigue and will leave you wanting more books from this up and coming author.

There are so many ways to describe this book and Cade Jay Hathaway's book series. Simple honest and truly amazing are the words that first come to mind. If you want an adventurous, erotic, but down-to-earth true love story with espionage, intrigue and pure love this is a **MUST READ**. Mr. Hathaway is one of the most exciting of writers to come along in a long time. I have read 3 out of the five books in these series along with his autobiography *Book Boy*. If you haven't discovered these books - do yourself a favor and service in reading them immediately. Cade's experiences are simply amazing and it's a heartfelt journey from start-to-finish. Thank you Cade for some of the best writing, and giving a gift to gay (and straight) readers for generations to come. Simply amazing.

This is a good read, It is well written and hard to put down. It touches the heart and makes you realize how alike all of us are under the outer layers with which society marks us. . I'm old, straight and female and it moved me.

Intrigue, mystery, drama, suspense, thriller, friendship, intimate, real, captivating and moving are only a few terms which describe this novel by the young Mr. Hathaway. A must read for anyone, everyone, particularly all who welcome diversity.

This is the best gay novel I have ever read. The writer really wrote a real book, not just a collection of gay sex scenes. I really fell in love with the characters and the story was nail biting. Also, I think

anybody would like this, not just gay folk. The sex is pretty strong in it, but I read 50 Shades of Grey and survived! Anyway, great book. I recommend it.

It is a must!!!! While reading this book, I felt like I was there! I felt empathy for the characters. What they were going through. It has helped me.
