JULIANNE BLAIR BOCHINSKI is a former science fair contestant, award winner, and judge, as well as the author of the two previous editions of The Complete Handbook of Science Fair Projects and More Award-Winning Science Fair Projects. She is a trademark and copyright law attorney and a member of the Connecticut Science Fair Committee.

Old school book, not worth for money

Interesting reading. Not as much of a resource as I had hoped.

great for ideas

very nice, quickly delivered.

My middle school grandchildren used this book for school science fair projects. They found it very helpful and interesting. They also found it educational to read.

Too advanced for elementary age.

The book is great for people who are interested in participating or assembling a good Science Fair!
It gives great tips!

I would say this book is best for 8th graders and up. Or a super smart science loving 6th and 7th grader. The experiments are pretty advanced. I think I was looking for something a little easier for both parent and child.
