His Secret Obsession How To Make Him Want You For Woman

Synopsis

Most relationships start out with enthusiasm, with endless conversations full of magical moments in which we feel a deep connection, an attraction to this person, as we fall in love. We wonder how it is so very possible that I could have a connection with someone who we've just met. When we, as women, begin to feel this sort of compatibility, we start to offer everything - our bodies, our hearts - to this man, as if all of our happiness in life depends upon him. However, we find that the man rarely invests in this relationship. In time, the man withdraws and the woman realizes he is not committed to her. The relationship is a one-way street. Gradually, the interaction between them is reduced to a minimum until, with time, the man withdraws, the intimate relationship within their relationship begins to fade away. While he doesn't necessarily quit on their relationship, we find that something ugly is bubbling underneath. Obsessively, we start thinking about why he is doing this. What have we done wrong, what do we do to bring him back? How can we change ourselves to better please him? We are overwhelmed with all sorts of fearful and guilty thoughts. In this book you will get the information you need to make him yours. His Secret Obsession How to Make Him Yours for Women Activate the Hero Instinct

Customer Reviews

This author know's her stuff! She is so knowledgeable on the mindset of men and how to relate to them when it comes to love. I have read the book 3 times already (it's a quick read) in order to study and retain the information for future use. The informations is practical and extremely accurate. The author really has achieved a level of insight not available to most. Once you read the book you can readily begin applying the principles described within and you are guaranteed to see immediate results. I'm glad I bought the book. It has really helped me in my new relationship.

I just needed the simple reminder to take care of myself. To not let someone treat me badly at the end of the day.

Read for book club but enjoyed the simple nature and basic approach to relationships. Also it was an easy read.

I will read this again.

I enjoyed reading HSO. Very informative. However, it was the last part of the book that made me realize why I liked the book so much. I am Christian woman and I'm looking for a man who loves Jesus first and foremost to be my husband.

I saw an ad for this book (a one day special for \$47) hyping 12 words to get your man totally into you. Not only did I not find the 12 words, the ideas in this book are everywhere and just plain common sense. I'm glad I didn't pay for the book - thanks to Kindle Unlimited. Additionally, it appears that there was zero editing - too many words spelled incorrectly, etc. Lastly, the supposed "Christian" author is a woman writing under the pen name of a man; apparently, she wants women to think they are getting a man's perspective. As a Christian woman, I find this completely unacceptable.

No 1 for womans is just a open minded book for all womans you need to read this I tryed one of the things meanwhile I read it send a sms to my ex and in half in hour it was at mmy place is unbelievable

I choose this rating because the writer really broke it down to where it's understandable, genuine, and relatable. I will recommend this reading to others.
