Tim LaHaye, who conceived the Left Behind® series, is a renowned prophecy scholar, minister, and educator. He is the author or coauthor of more than 80 books, including Charting the End Times and Exploring Bible Prophecy from Genesis to Revelation. He holds a DMin from Western Seminary and a LittD from Liberty University. Thomas Ice is director of the Pre-Trib Research Center and has authored and coauthored 30-plus books. He has a ThM from Dallas Theological Seminary and PhD from Tyndale Theological Seminary, and lives in Texas.

A helpful well produced tool to have a complete overview of Bible Prophecy. The print is clear and the colors in the charting are helpful to present this overview in a quick review or a more detailed investigation including Bible verses. It seems to be easily received by young and old alike as my teen age grandson and my 99 yrs old mother in law were glad to have the chart as well as wanted

more to share with others. The quickness of clarity seems to make a person feel like they can take the time to cover the chronology key points. Then if more study is wanted they can use follow up material of the Book and Study Guide of the same title. I treasure my copies and always have extra on hand to clarify my own thinking or share with others as they seemed interested.

In Revelation 1:3 we are told that if we study the prophecies we will be blessed. I want to be blessed and Tim LaHaye's books and charts make it so much easier to understand.

Loved this and gave all away to friends

easy to understand

It is very nice but I was hoping that it would include all the charts that are in the Tim LaHaye Prophecy Bible. I've looked around and don't find those charts available except when buying the book. I already have the bible and want to get the same charts for a bible study.

Handy chart for sharing with friends and family. Helps everyone get the BIG picture of God's plan for all mankind.

The chart is helpful, though simplistic. Good to have all of it in one place

This graphic presentation of our past and future is extremely informative. I have given more than 10 (lost count) to my friends. I would rather buy these from (there are cheaper)
