Exploring Masculinities: Identity, Inequality, Continuity And Change

Synopsis

Exploring Masculinities: Identity, Inequality, Continuity, and Change is a comprehensive and contemporary reader for the growing field of men's and masculinities studies. It takes a conceptual approach by covering the wide range of scholarship being done on masculinities beyond the model of hegemonic masculinity. C.J. Pascoe and Tristan Bridges extend the boundaries of the field and provide a new framework for understanding masculinities studies. Rather than taking a topics-based approach to masculinity, Exploring Masculinities offers an innovative conceptual approach that enables students to study a given phenomenon from a variety of perspectives. It divides up the field in ways that provide accessible introductions to complex debates and key intra- and interdisciplinary distinctions. The book provides a portable set of conceptual tools on which scholars and students can rely to analyze masculinities in different contexts, time periods, and embodiments.

Customer Reviews

"This projects to be an outstanding contribution to, and absolutely necessary intervention for, the field of masculinities...The volume is the most in-depth and comprehensive treatment of masculinities around, offering everything from theory, to classic texts that deal with men but may not analyze them as men, to cutting edge research. The editors are two of the youngest and most gifted scholars in the field of masculinities." --Freedon Oeur, Tufts University
"I like the overall approach; I like the fact that it includes theory, the foundation and core of the field, and the current directions in research on masculinities...This is a solid reader that can be used as either the primary

text or as supplementary reading for an undergraduate course on men and masculinities. I strongly recommend it." --Celestino Fernandez, University of Arizona
"This approach allows students to examine the relational nature of gender and think more theoretically." --Akiko Yasuike, California Lutheran University

C.J. Pascoe is Associate Professor of Sociology at the University of Oregon. Tristan Bridges is Assistant Professor of Sociology at The College at Brockport, State University of New York.

Great introduction to the field and its history. Pascoe and Bridges have curated an impressive list of scholarship and have arranged the contributions in a way that provides the reader with an array of jumping off points should they choose to delve deeper into any one of the many sub-topics they illuminate. If you read this book from cover to cover and walk away not knowing more about masculinity, you probably should have contributed an essay.

Really a great read. Used as a text book in my graduate level Gender Course. I wish everyone would read it.

It was a gift and she was delighted with it.

One of my articles is in this book, so I'm a bit biased ;)

Awsome! Fast shipping n good quality

not cheap

I ordered a brand new book and the cover is bent on the lower right corner along with a few pages.

The content of the individual chapters is both remarkably deep and at the same time accessible. The breadth of the volume itself is encyclopedic. Each chapter has a clearly written helpful introduction setting the stage for the scholarly material to follow.
