Sassy Saguaros

Synopsis

Steve Ryan spent months hiking and biking the beautiful Southwest Sonoran Desert, suffering more flat tires than he can count in his search for Saguaros that had something to say. *Sassy Saguaros* features the photographs he took of the most interesting subjects-based on their looks and personalities-and the hilarious captions he added (Steve is also a part-time comedian). These desert dwellers-which often weigh several tons and can live up to 200 years-are brought to life in the wonderful, wacky world of *Sassy Saguaros*. Get ready to laugh out loud and see how "human" this giant cactus can be!

Book Information

Customer Reviews

Steve Ryan, explorer and photographer, has lived in the Sonoran Desert for over 40 years. A successful trial lawyer for 38 years, he's now retired and devoted to sharing the beauty-and "sass"-of the famous Saguaro cactus.

No doubt, saguaros are magnificent and interesting plants, but now they have something to say. The great pictures and clever captions keep you laughing. I don't think I'll look at a saguaro in quite the same way again. Great gift idea,

I have been in love with Saguaros since the old cowboy movies. And then moving to Arizona in 1975 I had the opportunity to backpack through this wonderful desert. Steve Ryan has done an

amazing job of photographing the Saguaros and then putting names to them. One of the funniest books I've seen about shapes of cactus.

This book is absolutely hilarious. The pictures and captions either make you laugh out loud or go "Aww, how cute". The perfect holiday gift for friends and family in Arizona or, even better, for Arizonans to send to their friends and families outside Arizona. The book shows how "fun" and beautiful Arizona is.

Sassy Saguaros has laugh out loud captions and pictures. When driving throughout the southwest, we've often remarked how each saguaro is different and laughed at their unique sizes and shapes. This clever book captures that spirit. This would make a great gift for someone who loves the scenery of Arizona and the southwest.

The amazing saguaros don't disappoint here and neither do the creative captions by the author. With fun and sometimes downright sassy humor, it's quirky and I like quirky. SJR
