It is fantastic. I use it for teaching private students and it is clear and easy to read. After I got 3/4 of the way through the book the sheets did get more difficult to rip out, but it really is not that bad. I'm ordering it again right now and though I should write a quick review because this book has saved me time and money making duplicate copies of staff paper. THANKS!

No frills, just lots of staves & pages that tear out easily. I always look for books without spiral binding so it doesn't scratch my piano & this is it. My only complaint is it has an uneven number of staves (9) per page & when writing for piano there's always an empty one . It's still my favorite.

Just finished my first year studying music at University level. Found that this book was great to use as a notebook for music theory classes as well as for lessons. Pages are perforated so they're easy to rip out.

Really great music paper in abundance for a great price!

TONS of paper, the lines are great and I like that you can tear the pages out. Will be buying once I fill this one up

This thing has lasted me over two years in a college jazz studies program. The only thing you get more bang for your buck for is Ramen Noodles.

The Real Book Staff Paper is perfect. It has great spacing, great paper quality, a unique perforated edge, and over 400 double-sided pages. This is the only staff paper I will ever use.

However, not much competition these days--whatever happened to all of the choices, like parts paper, and 5 or 6-stave paper, etc. Also there used to be many choices that were printed on high-quality paper. This paper is fairly good, and is certainly better than typical printer paper.
