This book is just so cute! I believe it would be better for a first pregnancy, but if you're as sentimental as I am, its perfect even for the second baby. In fact, I wish I would've seen this with my first. This is a mix between a baby book and a journal. SO cute. It is very girly and it is for traditional families as it says mommy and daddy throughout the book frequently. I'm not girl at all, so there may be a few blank pages, but there are such cute things that I wouldn't think to write about. I may just have to re-do my first babies journal. This would make a wonderful gift for an expectant mother!

I love this journal! I purchased another pregnancy journal prior to this one and was really disappointed. I did my research to find the perfect book and stumbled upon this! I like how it guides you along by asking questions that pertain to your pregnancy, such as reactions, feelings and thoughts to specific moments. Nothing seems to be left out! If you are looking for more of a free write journal, then it probably wouldn't be a good fit for you.

I really wanted something a little more journal-y, a little more second pregnancy and a bit less first

pregnancy. But my friend whose expecting her first baby likes it so no worries. :)

I love the book. As a first time mom I'm excited to record information that my baby can look through when she is older. I haven't had time to start on it yet but I am excited to do so.

Adorable keepsake book. Great price for such a great keepsake. Bought it for my sister and she is so excited to document her pregnancy. Looks super cute and is hard cover. Should hold up and last well.

Love it! So cute if you are expecting a girl. It has great questions for you and your partner which gives each of you an opportunity to participate. It also has a room for ultrasound pictures. I definitely recommend it!

Cute, feel like it would work best for first time mothers though.

Cute but too brief and would have liked more separation in months and more free space for pictures
