What Was That Formula?: Surveying Formulas (Surveying Mathematics Made Simple) (Volume 11)

SURVEYING MATHEMATICS MADE SIMPLE

WHAT WAS THAT FORMULA?

Jim Crume P.L.S., M.S., CFedS

Surveying Formulas - Book 11

Synopsis

A quick reference for the most often used survey formulas which include those found in Books 1 through 10 of this math series. No examples, no instructions, just formulas.

Book Information

Series: Surveying Mathematics Made Simple

Paperback: 40 pages

Publisher: CreateSpace Independent Publishing Platform; 1 edition (December 26, 2013)

Language: English

ISBN-10: 1494807807

ISBN-13: 978-1494807801

Product Dimensions: 5.5 x 0.1 x 8.5 inches

Shipping Weight: 3.5 ounces (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars   6 customer reviews

Best Sellers Rank: #879,422 in Books (See Top 100 in Books)   #92 in Books > Engineering & Transportation > Engineering > Civil & Environmental > Surveying & Photogrammetry

Customer Reviews

My land surveying career began several decades ago while attending Albuquerque Technical Vocational Institute in New Mexico and has traversed many states such as Alaska, Arizona, Utah and Wyoming. I am a Professional Land Surveyor in Arizona, Utah and Wyoming. I am an appointed United States Mineral Surveyor and a Bureau of Land Management (BLM) Certified Federal Surveyor. I have many years of computer programming experience related to surveying. This book is dedicated to the many individuals that have helped shape my career. Especially my wife Cindy. She has been my biggest supporter. She has been my instrument person, accountant, advisor and my best friend. Without her, I would not be the professional I am today. Cindy, thank you very much.

great book

excellent reference book! Mr. Jim has put together a fine book for reference, even rearranging the formulas to solve for different variables. Highly recommended.

You can never have too many resources. Add this one to the list.

Good Book on surveying formulas!

A great way to store on the computer the equations used in surveying. Mr. Crume did a great job with these surveying booklets.

I just received this today and am unimpressed at best. This tiny, pocket-sized "book" contains information that can easily be found on the internet in about ten minutes. If you're studying surveying, or looking for a book to learn any real world applications you'll be disappointed.
