Customer Reviews

Shireen Madani Sims, MD (Gainesville, FL) is the Obstetrics and Gynecology Clerkship Director at the University of Florida College of Medicine.

Good for preparing USMLE CK. The questions are a little bit shorter and easier than those of UW. So it looks quite inappropriate to prepare the exam. BUT!! As you know, studying with computer makes you do lots of worthless things - web surfing!!!. So it's better to read more B-grade questions

than to read less A-grade questions. So I recommend this for medical students.

Great book, good review for the shelf. Except I am fairly confident that it is missing question #422, which just appears not to exist. That is OK. The other 499 questions are awesome!

Most of the questions were great, others were overly detailed/not relevant. Overall a great resource I would recommend for shelf prep.

This book is well written, concise and is an absolutely fabulous resource for assessing and improving knowledge obstetrics and gynecology.

Arrived as described.
