Customer Reviews

"Leather Corded Fusion Ties is a staggeringly beautiful compilation of step-by-step jewelry designs using leather cord." --Tricia Driscoll of Knotty Origami

J.D. Lenzen is the creator of the highly acclaimed YouTube channel Tying It All Together and the producer of over 400 instructional videos. He's been formally recognized by the International Guild of Knot Tyers (IGKT) for his contributions to knotting, and is the originator of fusion knotting--the creation of innovative knots and ties through the merging of different knot elements or knotting techniques. He lives and works in San Francisco, California.

I have seen many of JD's videos and I expected this book to be very good. I wasn't disappointed. In fact I was more impressed than I thought I would be. The knots are shown in very clear step by step photos. There are also tips that show how special techniques are used. There were two things I had hoped to see, first an explanation of how to measure the strands that make up a braid. I struggle with knowing what it will take to get a certain length of a braid. For example, in other books I have seen a list of materials needed to make a specific sized item. Second although JD does explain tools that are handy I hoped he would have included a list of suppliers. Perhaps the second edition will include these updates. That would make this as close to perfect as it could be.

It would be a good book to use for teaching kids at summer camp.

JD does it again! His writing and photographs are a model of clarity and this latest book of his forms a very significant addition to his previous publications. Buy yours now!

Very good but if you already have some of the other titles that JD has written you will know some of the ties in this book.

Super incredible all that I learned

This is an ok book and instructions are just ok

Very good book, I've found it to be very helpful.

Well illustrated and written. Pleased
