# **CINEMATOGRAPHY 101: Ten Essential Lessons For The Noob Cinematographer (Film School Online 101 Series Book 3)**

## **Synopsis**

Cinematography is perhaps the most mysterious of the filmmaking crafts because of the technology and equipment required to do the job. Aspiring filmmakers either love it or fear it with a passion! Once you understand the basic principles, however, it becomes a powerful tool in screen storytelling. Here is an overview of the art and craft of cinematography and how it fits into the overall scheme of making a movie. Includes a look at current technology and trends. The "ten essential lessons" are a compilation of several articles and lessons from the Film School Online website. Length: approximately 43 pages.

## **Customer Reviews**

Needed for school

Awesome, excellent for beginners as me. I learned and relearned some stuff reaffirming it.

Pretty much the same review as the Series Book 2 book: Covers key concepts in an easy to follow

manner. Decently written and put together. Nice to have in the toolkit of "how tos." I bought one, then other. Well worth the purchase.

This is a fine look at cinematography. It gives the basics, but leaves you wanting more. It's a good place to start.

I chose this product because is not expensive and so far is very good. I think they hit the kind of public they were looking for.

Good nuts and bolts read.

very basic however it was only \$.99

perfect score.thanks.
