Customer Reviews

I bought this for a library technical assistant exam and it had all the essentials needed. Their were other items with similar titles and from different years but this was the most updated and useful.

Good information about library classification. Lots of vocabulary. The pages were not numbered sequentially, so I had to make up my own page numbering.

I bought this for the state of Connecticut test for my daughter. It did not really help for that test. The questions in the book were not close to the ones asked. She did great because she has worked in a library.
