Bach Flower Remedies For Animals

Synopsis

Bach Flower Remedies for Animals is complete and authoritative, drawing as it does on insights from animal behaviorists and marrying them to practical examples of how the Remedies may be used.

Charles William Daniel (1871-1955) was a maverick free-thinker whose tiny publishing house had august links with many of the most influential thinkers and movements of the 20th century. To wit, copies of Daniel's books could be found in the library at Ghandi's ashram. This spirit lived on after his death, and the company maintained its niche by publishing definitive texts on a variety of spiritual and esoteric subjects. Many of these titles, notably those on Aromatherapy and Bach Flower remedies, have become standard works on the subject. When the C.W. Daniel list went looking for a new home, the Vermilion and Rider imprints were the natural place for this wonderful collection of authors. --This text refers to an alternate Paperback edition.

Stefan Ball and Judy Howard are both key members of the internationally acclaimed Dr Edward Bach Centre. Stefan Ball has been a member of the team since 1995 and is the author of The Bach Remedies Workbook and Bach Flower Remedies for Men. Judy Howard is a registered nurse, midwife and health visitor, and is a Trustee and Custodian of the Bach Centre. She has been a member of the team since 1985 and is the author of Bach Flower Remedies for Women and Growing up with Bach Flower Remedies. --This text refers to an alternate Paperback edition.

This book is well laid out. It is easy to find the remedy I am looking for and it covers so many animals not just dogs and cats. I love the information for birds. My Chihuahua has always been afraid of thunder and would pace or hide under my desk Just before the arrival of a storm I gave him a few doses of Aspen (two drops in tablespoon water by dropper into his mouth),now he no longer is afraid, he knows there is a storm but that's it. I gave him aspen again after a long period of no storms just to reinforce the response. He is still calm and relaxed during storms.

Excellent book! Either you are begginer or have some knowledge on dr. Bach flower remedies author guide you through every problem your animal might have! Thank you Stefan Ball for this excellent book!

It was clear and well written with an explanation of what each rememdy is for and how that would apply to an animal. The first part of the book tries to justify the assertion that animals have feelings. I imaging they are preaching to the choir for anybody who would buy this book. The back part of the book gives examples of different remedies for different types of animals and problems.

I don't think this is a great book. The description of each remedy is too related to humans. I would have liked the author to give more animal specific ways each remedy can help.

A good addition to my other books on Bach Flower Remedies for Animals. I will recommend this book to the members of our Animal Connection team at church.

Wonderful resource for your fur babies!

Great book. Gives the reader great insight into how our pets think.

Interesting.
